

A: FAST

Yellowed teeth can now be whitened in as little as 20 minutes, right here in our office, enabling you to get back to your daily routine that much faster.

EFFECTIVE

Years of stain build-up can be effectively whitened with the EPIC laser treatment. Patients will be able to notice results immediately after the procedure.

EASY

We proudly offer EPIC, a laser teeth whitening system that is an easy choice to make for you to brighten your smile.

“I have a lot more confidence now in how I present myself.”

The EPIC laser was developed by BIOLASE, Inc., the world leader in dental lasers.

Q: **WHY
EPIC
TEETH
WHIT-
ENING?**

Fast. Effective. Easy.

Q: ARE THERE ANY OTHER BENEFITS FOR ME?

A: Whiter and brighter teeth have long been desired by many patients. It is an ongoing trend because when we look good, we feel good. Now, with procedures such as the EPIC laser whitening we can enhance our smiles in a fast and economical way.

Great Results

A hydrogen peroxide-based whitening gel is applied to the teeth and activated by the laser. If you tend to have sensitive teeth you can let your dentist know and they can control the level of laser energy that is delivered to make the experience more pleasant. The EPIC treatment process lightens dark, yellowed, or discolored enamel caused by tobacco, food, and beverages such as tea, coffee and red wine. **Results are noticeable immediately after the procedure.**

Convenient for Your Time and Schedule

EPIC™ is an affordable investment in the beauty of your teeth and overall sense of well-being. For those with time constraints, EPIC is the ideal option. The laser whitening procedure is so short, only 20 minutes, which means less time is spent driving back and forth to the dentist's office. It also means that less time will be spent away from work and less time will be spent sitting in the dental chair resulting in a more comfortable experience.

No longer is there a need to squeeze a lengthy appointment into your schedule or deal with the hassle of inconvenient, time-consuming nightly trays to achieve results. What is your time worth?
